

# Vote Scott Bradley for United States Senate

Scott Bradley will adhere strictly to the Constitutional principles of our Founding Fathers. The other candidates' campaigns clearly demonstrate that they will not!

## Third Parties

\*Are you happy with what we have in the national government?  
\*Regardless of which of the two major parties holds power the national government continues to grow and be more intrusive into our lives.  
\*The Republicans and Democrats have teamed each other for the past 150 years. The national government is what they want it to be.  
\*With slight nuances of differences they have, in practice, delivered bigger debt, international adventurism, unsound economy policy, more entitlements, and a growing leviathan of national government that exceeds all bounds established by the United States Constitution.  
\*To break this cycle requires a new approach. The two major parties have demonstrated in countless ways and times that they are unwilling to take that approach. That approach requires a strict adherence to the limits, scope and bounds of the enumerated powers granted to the national government in the United States Constitution. Scott Bradley will adhere strictly to this philosophy.

**Vote for Principle over party and restore the Nation to it's proper foundation.**

## So Called Free Trade Agreements

The North American Free Trade Agreement (NAFTA), the Central American Free Trade Agreement (CAFTA), and other so called "Free Trade Agreements" have nothing whatsoever to do with free trade. They are all about managed trade. They establish outside bureaucracies that are staffed by unelected, international bureaucrats that create regulations that manage U.S. trade with foreign nations. This violates Article I Section 8 Clause 3 of the U.S. Constitution which grants to the Congress the authority and duty to regulate commerce with foreign nations.

**This unconstitutional action destroys the sovereignty of the United States.**

## Splitting the Vote

In today's political landscape there will be fewer voting the Democratic ticket in Utah than at any time in recent history. A democrat occupies the White House and has fostered programs, policy and ideals that have angered main stream America. The Democrat Party, with its large majority, has approved of the President's faulty solutions and approach. Americans are rightly angry. Utahns will not vote for a democrat candidate in any significant percentage. While Republicans have publically bemoaned the scurrilous policies of the Democrats, they have not offered much beyond the hope of a bi-partisans' go-along-to-get-along package of compromises that will modify the position of the Democrats only by slight nuance.

Only an unflinching commitment to the soundly founded and tried and proven principles upon which this Nation was established give us hope of true solutions to the challenges that face this Nation.

**Vote for the Principles. A vote for either of the major parties is a vote for a continuation along the path that is destroying this Nation.**

## Balanced Budget Amendment

There is no need to seek a balanced budget amendment that will surely trigger a dangerous Constitution Convention. The budget may be balanced by simply limiting federal expenditures to those allowed within the United States Constitution. Approximately 80% of the current Federal spending is not allowed under the Constitution.

Are we a political people? Yes, very political indeed. But what party do you belong to or would you vote for? ...Vote for the man who will sustain the principles of civil and religious liberty, the man who knows the most and who has the best heart and brain for a statesman; and we do not care a farthing whether he is a whig, a democrat, ... a republican, ... or anything else. These are our politics (Brigham Young, Utah's first Governor, Journal of Discourses, 13:149)

## Term Limits

We the People already have term limits available to us. It is called the ballot box. Every two years the entire Congress could be removed and 1/3 of the Senate could be ejected. Two years later the House could again have all members removed by the ballot box and another third of the Senate could be replaced, in addition the White House could be cleansed at that time.

We could quickly return the Nation to its Constitutional moorings if the people were willing to take such action.

Thomas Jefferson said, "A Nation that expects to be ignorant and free expects what never was and never will be."

The true corrective for unconstitutional government actions is a people who know the proper limits and bounds of government and control their government at the ballot box.

The Founding Fathers experienced term limits and found them unsatisfactory, and, in today's world, why would we want to term limit out of office a representative who was keeping his/her actions within proper bounds?

There are plenty of socialists anxious to step into any open office.

**There is no need to risk a Constitutional Convention by agitating for an unnecessary term limits amendment.**
